# Healthcare Challenge

**80%** of healthcare decisions are based on diagnostic tests

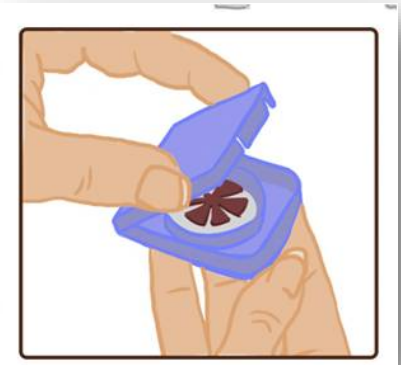

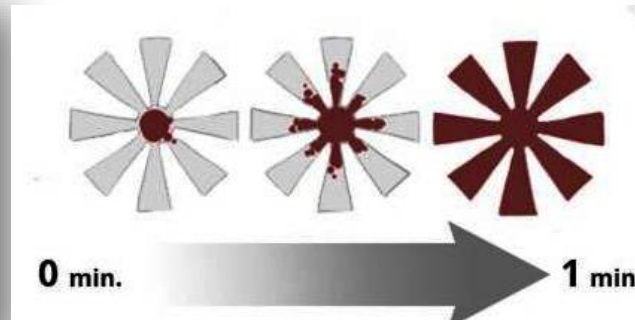

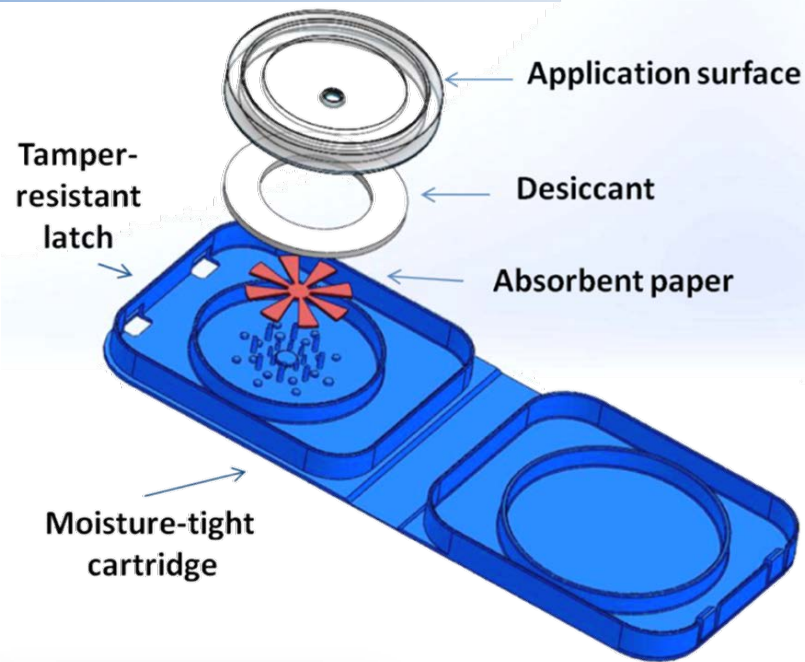

But we are still using outdated methods to collect blood samples for testing

Especially difficult for those who need it the most:

- Sick
- Homebound
- Elderly
- Children
- Rural village in Africa

# HemaSpot™-HF: Blood sampling device

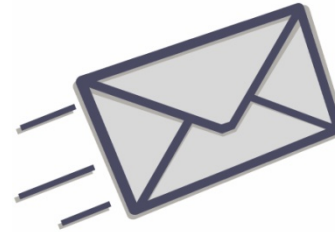

# HemaSpot Solution

## Streamlining Blood Collection

**Collection**

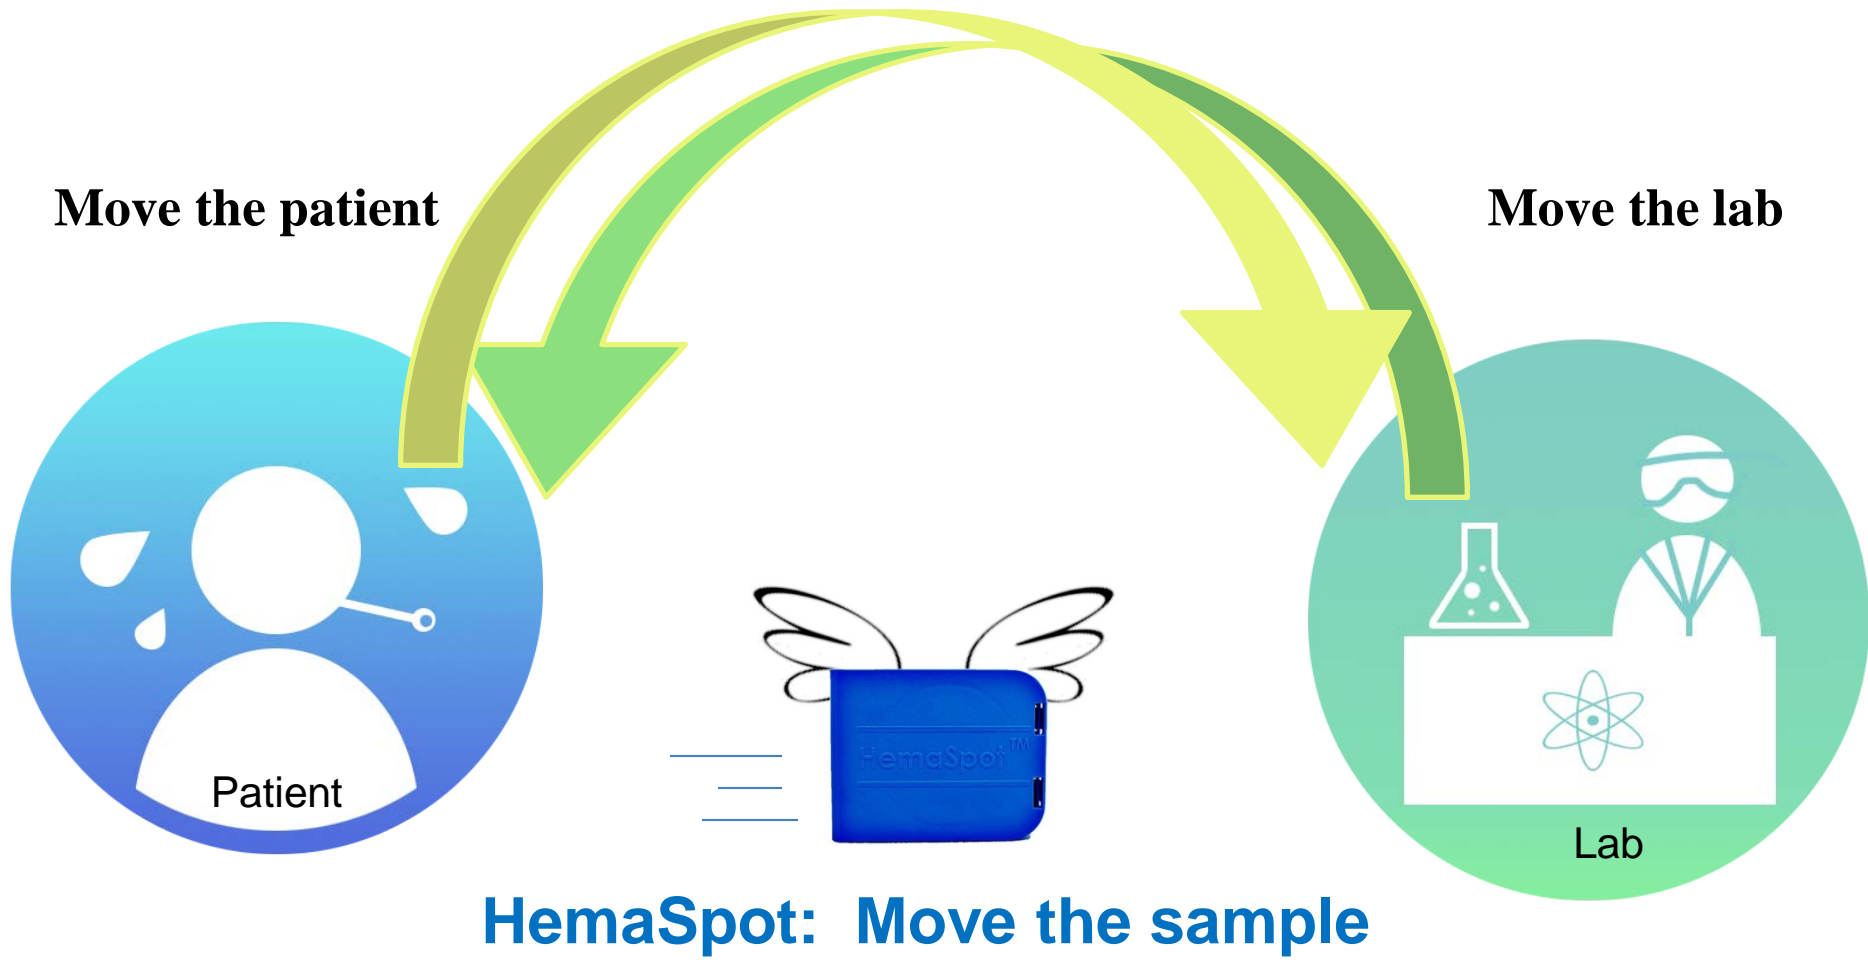

**Shipping**

**Analysis**

# HemaSpot: New model for blood tests

# HemaSpot in Action

Diabetes in remote Scottish isles

Snow leopards in Himalayas

HIV & other ID in developing nations

Wellness testing & medical research in NA

# Thank You!

Our goal is to revolutionize  
*blood collection*  
and bring access to life-saving  
tests to *everyone*
